Your chart comparison

GUNA SCORE	NADI DOSHA	BHAKOOT DOSHA	GANA DOSHA	MANGLIK
34 / 36	ABSENT	ABSENT	ABSENT	CANCELLED

Anjali and Rohan score 34 out of 36 in this report's matching method. The score band is Excellent. Each comparison follows a stated rule; the total is not a probability of marriage success. Varna, Vashya and Gana use the groom-by-bride tables, with Rohan as groom and Anjali as bride.

The separate checks report Nadi as absent, Bhakoot as absent, Gana as absent, and Manglik as cancelled. Exceptions change these labels without adding points.

The points show how closely the two charts match this traditional method. Each koot is one part of the comparison. Higher points mean more agreement under its rules. A low score marks a topic for discussion. The total is not a percentage or a prediction of marriage success.

Chart details

A birth chart records where the planets appeared at the time and place of birth. This matching method mainly compares the Moon in the two charts. The table records the values used to calculate the scores.

The Moon sign is the zodiac sign containing the Moon. A nakshatra is a smaller part of the sky; its pada is one of four sections. The ascendant is the sign rising at birth. Navamsa is a finer chart division used to check some exceptions. The remaining rows are traditional groups used in the comparisons that follow.

SUMMARY

Strengths

These are the higher-scoring parts of this match. A result can be one of their strengths and still leave room for discussion.

Varna result

Varna scores 1 out of 1. This comparison earns full marks under the stated rule. It is among the higher results when each score is compared with its own maximum. Tied results follow the order of the score table. Varna compares four traditional categories assigned to the signs containing the Moon at birth. The categories do not establish either person's character or worth.

Vashya result

Vashya scores 2 out of 2. This comparison earns full marks under the stated rule. It is among the higher results when each score is compared with its own maximum. Tied results follow the order of the score table. Vashya compares traditional Moon-sign groups through ideas of influence and willingness to follow. It does not establish how either person shares decisions.

Topics to discuss

Sharing decisions

If useful, discuss how you would make a decision when you prefer different options.

Preferences around affection

If both of you are comfortable, discuss preferences and boundaries around affection.

Shared expenses and home

If useful, compare your expectations about shared expenses and where you would like to live.

Koot scores

Varna · Traditional Moon-sign categories

1 / 1

Varna compares four traditional categories assigned to the signs containing the Moon at birth. The categories do not establish either person's character or worth. Anjali has the Moon-sign category Brahmin; Rohan has Brahmin. Varna scores 1 out of 1. This comparison earns full marks under the stated rule.

> RULE APPLIED
> 1 point if the groom's Moon-sign varna is equal to or higher than the bride's. `Result: groom Brahmin, bride Brahmin.`

Vashya · Traditional influence groups

2 / 2

Vashya compares traditional Moon-sign groups through ideas of influence and willingness to follow. It does not establish how either person shares decisions. Anjali has the Moon-sign group Jalachara; Rohan has Jalachara. Vashya scores 2 out of 2. This comparison earns full marks under the stated rule.

> RULE APPLIED
> Scored from the traditional groom-by-bride Vashya table (0 to 2). Sagittarius and Capricorn change group at 15°. `Result: groom Jalachara, bride Jalachara.`

Tara · Birth-star counting

3 / 3

Tara compares the birth stars, the Moon's sky divisions at birth, through a repeating count of nine. Tradition calls some positions favourable; this does not predict events. Anjali's birth star is Uttara Bhadrapada; Rohan's is Revati. Tara scores 3 out of 3. This comparison earns full marks under the stated rule.

> RULE APPLIED
> Count the stars from each person's nakshatra to the other's and divide by 9. A remainder of 3, 5 or 7 is unfavourable. Each favourable direction earns 1.5. `Result: Anjali→Rohan: Sampat (2); Rohan→Anjali: Ati-Mitra (9).`

Yoni · Birth-star animal symbols

2 / 4

Yoni compares animal symbols assigned to the birth stars, the Moon's sky divisions at birth. Tradition uses their pairings in marriage matching; they do not describe either person's personality. Anjali's birth-star animal is Cow; Rohan's is Elephant. Yoni scores 2 out of 4. This is a mixed result, earning some of the available points.

> RULE APPLIED
> Scored from the full 14 × 14 Yoni table of nakshatra animals (0 to 4). `Result: Cow × Elephant (neutral).`

vedicmatchmaking.ai sample

Graha Maitri · Friendship between ruling planets

5 / 5

Graha Maitri compares the planets traditionally assigned to rule the partners' Moon signs. Astrology labels these planets friendly, neutral or opposed; those labels do not establish friendship between people. Anjali's Moon sign is ruled by Jupiter; Rohan's by Jupiter. Graha Maitri scores 5 out of 5. This comparison earns full marks under the stated rule.

> RULE APPLIED
> Based on the natural friendship between the two Moon-sign lords (0 to 5). `Result: both Moon signs ruled by Jupiter.`

Gana · Traditional temperament groups

6 / 6

Gana compares the traditional birth-star groups Deva, Manushya and Rakshasa. Anjali's birth-star group is Manushya; Rohan's is Deva. Gana scores 6 out of 6. This comparison earns full marks under the stated rule.

> RULE APPLIED
> Scored from the traditional groom-by-bride Gana table (0 to 6). `Result: groom Deva, bride Manushya.`

Bhakoot · Distance between Moon signs

7 / 7

Bhakoot compares the relative positions of the two Moon signs within the traditional matching system. Anjali's Moon is in Pisces; Rohan's is in Pisces. Bhakoot scores 7 out of 7. This comparison earns full marks under the stated rule.

> RULE APPLIED
> 0 points when the Moon signs sit 2/12, 5/9 or 6/8 from each other; otherwise 7. `Result: Moon signs 1/1 apart.`

Nadi · Traditional constitution groups

8 / 8

Nadi compares the traditional group assigned to each person's Moon birth star: Adi, Madhya or Antya. Anjali's Nadi group is Madhya; Rohan's is Antya. Nadi scores 8 out of 8. This comparison earns full marks under the stated rule.

> RULE APPLIED
> 0 points when both nakshatras share the same Nadi; otherwise 8. `Result: Madhya × Antya.`

YONI

Yoni table

This table is the lookup used for the Yoni score. Each birth star is assigned an animal symbol. Anjali's Uttara Bhadrapada is the **Cow**; Rohan's Revati is the **Elephant**. The outlined cells show their 2 out of 4 result.

The animal names and ratings belong to the traditional table. They do not describe anyone's character. The explanation in the Yoni section puts this result into everyday terms.

Horse: Ashwini, Shatabhisha · Elephant: Bharani, Revati · Sheep: Pushya, Krittika · Serpent: Rohini, Mrigashira · Dog: Mula, Ardra · Cat: Ashlesha, Punarvasu · Rat: Magha, Purva Phalguni · Cow: Uttara Phalguni, Uttara Bhadrapada · Buffalo: Swati, Hasta · Tiger: Vishakha, Chitra · Deer: Jyeshtha, Anuradha · Monkey: Purva Ashadha, Shravana · Mongoose: Uttara Ashadha · Lion: Purva Bhadrapada, Dhanishta

Doshas and exceptions

A dosha is a caution raised by a chart rule. **Absent** means the caution is not raised. **Present** means it remains after checking the listed exceptions. **Cancelled** means a classical exception removes it. **Mitigated** means a regional exception softens it. These labels describe the chart rules, not a certain outcome for the marriage. Exceptions leave the original points unchanged.

Nadi dosha

ABSENT

The Nadi status is absent. This check leaves no active caution under the report's rules. The Nadi score remains 8 out of 8.

RULE

Nadi dosha: both Moon nakshatras belong to the same Nadi (Adi, Madhya or Antya).

Bhakoot dosha

ABSENT

The Bhakoot status is absent. This check leaves no active caution under the report's rules. The Bhakoot score remains 7 out of 7.

RULE

Bhakoot dosha: the two Moon signs sit 2/12, 5/9 or 6/8 from each other.

vedicmatchmaking.ai sample

Gana dosha

ABSENT

The Gana status is absent. This check leaves no active caution under the report's rules. The Gana score remains 6 out of 6.

RULE

Gana dosha: one person is Rakshasa gana and the other is not.

Manglik (Mangal) dosha

CANCELLED

Manglik, also called Mangal or Kuja dosha, is a traditional marriage-matching check based on Mars's position. This report checks the placement and its listed exceptions before giving a result. The Manglik status is cancelled. An applicable exception removes the initial caution under this method. Both people remain Manglik after individual exceptions. This report applies the both-Manglik matching exception described by B. V. Raman. Anjali has Mars in Virgo. The active individual Manglik result is yes, with strength category strong. Rohan has Mars in Gemini. The active individual Manglik result is yes, with strength category strong. These are chart-rule categories, not findings about anyone's behaviour. The matching score is unchanged.

> RULE
> Mars in the 1st, 2nd, 4th, 7th, 8th or 12th house from the Lagna or the Moon makes a person Manglik. Venus is checked as a third reference. Exceptions checked: Mars in its own or exalted sign, Mars in Leo or Aquarius, house-specific signs, Jupiter joining or aspecting Mars, the Moon joining Mars. If both people are Manglik the doshas cancel.

ANJALI · MARS IN VIRGO	COUNTED FROM	MARS IN HOUSE	MANGLIK HOUSE?	EXCEPTION
	Lagna	1	yes	
	Moon	7	yes	
	Venus	3	no	

Manglik (strong). Mars in Virgo falls in house 1 from the Lagna, house 7 from the Moon.

ROHAN · MARS IN GEMINI	COUNTED FROM	MARS IN HOUSE	MANGLIK HOUSE?	EXCEPTION
	Lagna	11	no	
	Moon	4	yes	
	Venus	4	yes	

Manglik (strong). Mars in Gemini falls in house 4 from the Moon, house 4 from the Venus.

Some families believe Manglik dosha weakens after age 28. This report does not apply that rule.

Method

This reading uses the supplied birth details and the report's stated matching rules. It cannot establish either person's character or the outcome of a marriage. The discussion topics are optional and independent of the chart results. For a fuller astrological interpretation, consult a qualified Jyotishi who can review both complete birth charts.

ASTRONOMY

The settings below let another reader reproduce the chart calculation. Sidereal zodiac, Lahiri ayanamsa, Swiss Ephemeris, whole-sign houses. Matching uses the Moon's sign, nakshatra and pada.

BIRTH TIME

Local times were converted with the historical time zone for each birthplace on that date, including daylight saving where it applied.

SCORING

Classical Ashtakoot Milan, 36 gunas. Varna, Vashya and Gana use the groom-by-bride tables, with Rohan as groom and Anjali as bride.

BANDS

33-36 Excellent, 25-32 Very good, 18-24 Acceptable, under 18 below the traditional threshold.

EXCEPTIONS

This report uses a stated selection of matching rules and exceptions. Published traditions differ. Its knowledge library records passages from Muhurta Chintamani, B. V. Raman and named practitioners, with source limits. An exception changes the status without restoring points. Manglik uses the report's stated Lagna, Moon and Venus checks.

WRITING

The prose was assembled from predefined templates, computed chart facts and the report's source-linked knowledge library. Code checked the supported values, result states and required sections. No language model drafted this reading, and no individual expert review is included.

LIMITS

This report compares part of two birth charts. A full reading by a Jyotishi, a practitioner of Vedic astrology, considers more of each chart. The result cannot establish how either person behaves. It is not advice about health, money or law.
